## REDEMPTION STORY

Mass incarceration is a huge problem that many states in our country are struggling with. In California and across the nation people are scratching their heads, trying to envision what a picture of mass **rehabilitation** would look like. This book has it!

*"Redemption Story reveals the evolution I have personally witnessed in the lives of thousands of prisoners... Together we can pave the way, and Paul Pommells provides the story to take us there."*

–Coach Mara Leigh Taylor

This vision of mass rehabilitation is presented in a compelling story that will move your heart. After you read this book you will immediately want to go out and convince two more friends to read it too. It is that good!
